

Success through Teamwork

ECM Engineered Ceramic Materials GmbH is an engineering company located in Moosinning, 10 minutes away from the Munich Airport.

We are specialized in designing and manufacturing of precision ceramics for a wide range of applications to our worldwide customers in the field of aerospace, astronomy and high end industrial applications.

Our ceramic is "carbon-fiber reinforced silicon carbide" or "Cesic®", which consists of a matrix of silicon carbide (SiC) reinforced with chopped carbon fibers of various compositions and lengths.

For immediate commencement of employment we are looking for a
